The Fifth International Workshop on

Pattern Recognition in Information Systems
PRIS 2005

May 24-25, 2005 – Miami, USA

First Announcement and Call for Papers

In conjunction with the Seventh International Conference on Enterprise Information Systems - ICEIS 2005 (http://www.iceis.org/)

In collaboration with The International Association for Pattern Recognition

Chair:

Hugo Gamboa, Escola Superior de Tecnologia de Setúbal, Portugal
(hgamboa@est.ips.pt)

Workshop Background and Goals

Huge amounts of information in digital format are currently available; for example, the world-wide-web is an immense source of text, images, video, and sound. Structuring/understanding this multimedia information is a difficult task. Accessibility issues arise in this context, with personal identification techniques playing a key role in human-machine interfaces for security and restricted-access systems. Pattern recognition (PR) and machine learning (ML) provide formal frameworks in which this class of problems can be adequately addressed. On the other hand, exploratory analysis (mining) and content-based retrieval of multimedia data serve both as important practical application domains for PR and ML techniques, and as a source of challenging research problems.
The aim of this workshop is to bring together researchers, practitioners and potential users with interests in the multidisciplinary topics listed above.

**Areas**

Paper submissions should be related to the following areas: pattern recognition, biometrics and personal identification; vision and scene interpretation; multimedia storage and retrieval; and data mining and machine learning. Focus on applications (industrial, medical, entertainment, home media) is desirable, although new techniques and algorithms are also highly encouraged.

**Topics** of interest include, but are not limited to:

- Data mining
- Object Recognition
- Scene interpretation
- Electronic surveillance
- Human Movement identification
- Content-Based analysis and Retrieval
- Data categorization (text documents and images)
- Document analysis and classification
- Feature extraction and selection
- Learning systems and learning repositories
- Data and knowledge representation
- Human computer interaction
- User profile modelling
- Emotion detection
- Physiological signal classification
- Biomedical pattern analysis
- Biometrics and personal authentication systems

**Techniques:**

- Classification algorithms
- Unsupervised learning
- Combination techniques
- Nonparametric methods
- Prototype-based techniques
- Structural Matching
- Neural-based pattern recognition
- Graph-based methods
- Genetic techniques
- Grammar and language methods
- Grammatical inference
- Comparative studies
- Hybrid methods
Format of the Workshop

The workshop will comprise of invited talks, oral and poster presentations. The proceedings of the workshop will be published in the form of a book, with ISBN and a CD-ROM as well.

Invited Speakers

J. K. Aggarwal, The University of Texas at Austin, USA
- Presentation title: Human Activity Recognition - A Grand Challenge

José Carlos Príncipe, University of Florida, USA

Submission of Papers

Prospective authors are invited to submit papers for oral presentation in any of the areas listed above. Only full papers in English will be accepted, and the length of the paper should not exceed 10 pages (5000 words). Instructions for preparing the manuscript (in Word and LaTeX formats) are available in the ICEIS web page. Postscript/RTF versions of the manuscript should be submitted thru ICEIS web-based paper submission procedure.

Important Dates

Full paper submission: January 25, 2005
Author notification: March 4, 2005
Camera-ready paper submission: March 18, 2005

Workshop Program Committee

Aditya Vailaya
Adnan Amin
Ana Fred
Carlo Sansone
Colin de la Higuera
Enrique Vidal
Eric Trupin
Francesc J. Ferri
H. Lilian Tang
Jean-Marc OGIER
Jorge S. Marques
Jose M. Inesta
Lei Zhang
Marcello Pelillo
Mário Figueiredo
Mingjing Li
Nalini Ratha
Robert Duin
Sameer Singh
Simone Marinai
Tin Kam Ho

Conference Location

The workshop will be held at Deauville Beach Resort in Miami, USA.

Registration Information

To attend the workshop you need to register at http://www.iceis.org

Secretariat
